To whom it may concern:

The purpose of this letter is to address issues related to the SVCH and the composition of our reclosable bags. All reclosable bags manufactured by RD Plastics are produced to the highest standards utilizing 100% FDA, USDA virgin polyethylene resin. The bags contain no heavy metals, mercury or other toxic chemicals. Attached is a copy of our MATERIAL SAFETY DATE SHEET which details explicitly the specifications and ingredients of our raw materials provided by our resin supplier.

The following is a list of substances specified on the candidate list of SVHCs and after verification, none of these substances are contained in our products to the best of our knowledge: Anthracene, Diaminodiphenylmethane, Dibutyl phthalate, Cobalt dichloride, Diarsenic trioxide, sodium dichromate, 5-tert-butyl-2,4,6-trinitro-m-xylene, Bis(2-ethylhexyl)phthalate (DEHP) Hexabromocyclododecane, Alkanes, C10-13, chloro-chlorinated paraffins, Bis(tributyltin)oxide, Lead hydrogen arsenate, Benzyl butyl phthalate, Triethyl arsenate. It is the responsibility of each user of the material to evaluate via testing and determine the individual product's suitability for their specific application.
